Introduction

Final-year B.Tech Computer Engineering student at NMIMS University with hands-on experience in DevOps practices and cloud infrastructure. Currently working as a Graduate Engineer Trainee in DevOps, with proven expertise in AWS services, CI/CD pipelines, and containerization. Successfully implemented GitOps workflows, infrastructure automation, and deployed scalable applications using Docker, AWS S3, CloudFront, and GitHub Actions. Passionate about streamlining software delivery processes and building robust cloud-native solutions.

Education

DAV International School, Kharghar — CBSE	Sept 2018 – Jun 2020
Percentage: 94%, Stream: Science	
NMIMS University, Navi Mumbai — B.Tech in Computer Engineering	Sept 2021 – Present
CGPA: 3.01/4 (as of Semester 7)	

Experience

Graduate Engineer Trainee - DevOps , LenDen Club	Jun 2025 – Present
- Learning and implementing DevOps practices including CI/CD pipeline development. - Gaining hands-on experience with containerization technologies and orchestration tools. - Working on infrastructure automation and deployment strategies. - Collaborating with development teams to streamline software delivery processes.	
Cloud Support Intern , Operisoft Pvt. Ltd., Navi Mumbai	Jan 2025 – May 2025
- Troubleshoot and optimized AWS services including EC2, S3, IAM, and CloudWatch. - Assisted in infrastructure automation and CI/CD pipeline exposure. - Preparing for AWS Certified Solutions Architect – Associate (SAA-C03).	
Software Developer Intern , ONGC, BKC Mumbai	May 2024 – Jul 2024
github.com/abhay702/InfoAssist - Dockerized and deployed a scalable FAQ chatbot using Python and Streamlit. - Integrated a backend database for real-time FAQ updates. - Simulated production environments via containerized local deployments.	

Projects

Personal Portfolio Website portfolio.abhayis.online	github.com/abhay702/abhayr.github.io
Built cloud-native Ruby on Rails portfolio with custom domain, SSL, and GitOps automation, hosted on AWS S3 with CloudFront CDN and ACM SSL certificate. Implemented CI/CD pipeline for automated Rails asset building, S3 sync, and CloudFront cache invalidation through GitOps workflow. Tools: Ruby on Rails, AWS S3, CloudFront, ACM, Route 53, GitHub Actions, HTML5, CSS3.	
ProfilePerfect	github.com/abhay702/PP
Developed AI-powered web application for ATS resume optimization with HR-style feedback, alignment scores, and keyword insights using NLP techniques. Tools: Python, Streamlit, Google Generative AI API, pdf2image, Pillow.	

Technologies

Languages: Python, Ruby, JavaScript, SQL, HTML, CSS, C++ , Java	Databases: MySQL, MongoDB
Cloud Platforms: AWS (S3, CloudFront, ACM, Route 53, EC2, IAM, CloudWatch)	
DevOps & Tools: Docker, Git, GitHub Actions, CI/CD Pipelines, Infrastructure Automation, GitOps	
Frameworks: Ruby on Rails, FastAPI, Streamlit, React
